

June 2024

Dear Participant,

On behalf of [Wolfram Research](#), congratulations on your performance in the Taskformer AI Hackathon! We are pleased to help support this event by providing a year of [WolframOne](#) for everyone in the top teams.

As the creators of [Mathematica](#), [WolframAlpha](#), and [WolframGPT](#), Wolfram Research is the pioneer of computational intelligence and scientific innovation. Wolfram Language powers intelligent assistants, AI systems, and tools for R&D, education, enterprise and consumer applications. In addition to providing software for more than a generation of scientists and students, Wolfram maintains some of the web's most visited sites for technical information, including the [Wolfram Demonstrations Project](#) and [Wolfram Community](#) - an online forum for sharing ideas, asking questions, and collaborating with professionals, researchers, and other students across disciplines.

To redeem your Wolfram award please complete the webform here:

<http://www.wolfram.com/sponsorshiporderform/>

Please use **zqTaskformerAIHack624hs** in the Program Code field on the webform.

Access is non-transferable and may only be used by eligible awardees from this event.

Awards are limited to one per person. Please note that this offer expires on January 31st 2025 and you must complete the form by that date to receive your free tech.

Wolfram offers research-based education programs for students from middle-school to post-doc level. For more information and to apply visit: <https://education.wolfram.com/programs/>

Sincerely,

Carol Cronin
